WILL NOT PRESS THE SUIT AGAINST SMELTER TRUST

On Account of the Titanic Disaster and the Death of Guggenheim the Inquiry Will Be Indefinitely Postponed.

WASHINGTON, D. C., May 27.—An echo of the Titanic tragedy in the House is the decision of Representative Martin, Democrat, of Colorado, not to press his resolution for investigation of the Guggenheim brothers' alleged "smelter trust."

Representative Martin says he has decided to drop the proposed investigation until fall. He gives as one of his reasons for that decision the grief into which the Guggenheim family has been plunged by the death of Benjamin Guggenheim on the Titanic.

"I had intended to press the investigation," said Martin, "just about the time the Titanic sank. But the death of Benjamin Guggenheim prompted me to postpone the inquiry, and now it is too late to get action this session of Congress."

Representative Bulkley, Democrat also has a resolution to probe the "smelter trust," and the Pacific Coast congressmen are backing the proposed inquiry.

Proposed closing of the San Francisco mint, to stop coinage there and make it only an assay office, provoked another attack upon the "smelter trust" in the House, although, after a bitter fight, the House voted to continue the San Francisco mint. It was freely charged by various representatives that closing of the mint would redound only to benefit the "trust." Representative Baker, Democrat of California, declared the Coast smelter of the combination would get the business, or a large part of it, formerly done by Uncle Sam—and with it the profits.

Another stab at the "trust" is proposed in the House Territories committee, which is considering the bill for federal construction of an Alaskan railroad, to compete for copper ore carrying business with the Guggenheim road. That the Guggenheim brothers have relinquished control of the Alaska railroad is asserted, however.

Moose and Friends To Visit Goldfield

Howdy, Pap! This is the slogan that is now interesting the people of Tonopah and the crowds are eagerly waiting for the special train that the Moose have ordered which will take the Moose and friends to Goldfield on the evening of May 29th, which is the date of the anniversary of the Goldfield lodge of Moose. The program that has been prepared is said to be one that has never been equaled in the state and all those who go are assured of the time of their lives. The train will leave Tonopah at 6:30 p. m. and will leave Goldfield at about 2 or 2:30 in the morning. The rate for the trip is only \$2 and many who are not members of the order will avail themselves of this low fare so that they may visit friends over

in the sister camp. The regular meeting of the Tonopah Moose which was held Saturday night, disclosed the great interest that is being taken in this order and already the Tonopah Moose have a membership of over 200 and many applications are in for next week. Albert Kell was the winner of the diamond Moose button that was offered for the member who secured the greatest number of applications for the past week.

W. A. Cromley was a close second and captured the second prize, a handsome emblem. Inasmuch as the Goldfield men have shown some speed in coming over to Tonopah it shows all of the citizens of Tonopah to show the sister camp that when it comes to real activity Tonopah is second to none.
